3/30/2017	Adrienne Wallace-Povirk	Allison Mitchell	Artem Berezovsky	Rayna Rosati
4/6/2017	Jordan White	Morenci Manning	Dan Leudtke	Steven Jones

4/13/2017
4/20/2017
4/27/2017

Aamod Dekhne
Donavan Watza

Laura Hurley
Kayla Conner

Andreana
Ethan Brock

Josh Heyza
Stephanie Blocker

Learning Outcomes:

1. The students will comprise and present a scholarly seminar on recent research progress to graduate students in the Cancer Biology Program as well as to faculty that wish to attend.
2. The students will receive feedback from their peers on the presentation in terms of research content as well as slide show presentation.
3. This course will help with presentation skills, organization of presentations and receiving critiques on overall science and presentation skills.
4. In addition, the course will help students critically and constructively evaluate their peers

Grading will be based on the following criteria:

1. Students are expected to present a seminar
2. Students are expected to attend and show support for fellow students
3. Students must participate in seminar Introductions, Research Content Evaluations and Presentation Evaluations
