## CANCER BIOLOGY PHD PROGRAM

Driving cutting edge research designed for student success

- An **interdisciplinary** training experience in the rapidly evolving field of cancer biology leading to a Ph.D. degree
- **Full support and tuition** provided by an National Institutes of Health T32 training grant, university and cancer center fellowships, individual pre-doctoral fellowships and research grants
- No teaching requirements but multiple teaching opportunities for interested students
- **Personalized curriculum** tailored to students' specific interests of research and career goals
- **Outstanding facilities** for cutting-edge research
- Harness the power of the Karmanos Cancer Institute, an **NCI-designated Comprehensive Cancer Center**
  - **Clinical rotations** with practicing KCI oncologists
  - Introduction to clinical trial design featuring **"bench-to-bedside" research**
  - Regular interactions with basic & translational scientists
  - More than 800 ongoing **clinical trials** and scientific investigation programs
- **Career development** opportunities focused on academia, government, and industry
- Close-knit, **supportive peers** in a nationally recognized training program

### Located in the heart of a vibrant, revitalized Detroit

- Nationally acclaimed restaurant scene
